ABOUT ME

Aspiring Software Developer with foundational knowledge of Python, HTML, CSS, basic JavaScript. Experienced in building simple web applications and academic projects, with a strong interest in learning backend development and full-stack technologies. A motivated learner with good problem-solving skills, eager to grow and contribute to real-world software development projects.

EDUCATION

BMIT College, Solapur | 2022–2026

B. Tech in Computer Science and Engineering

CGPA: 9.5

C. B. Khedagi College, Akkalkot | 2020–2022

XII (HSC)

76.33%

Mangrule High School, Akkalkot | 2020

X (SSC)

87.80%

SKILLS

- **Programming Languages:** Python
- **Frontend:** HTML, CSS, JavaScript
- **Version Control:** Git/GitHub
- **DataBase:** MySQL
- **Soft Skills:** Team Work , Communication
- **Productivity & Presentation:** PowerPoint
- **Data Analysis & Visualization:** Excel, Google Sheets, Jupyter Notebook, Google Colab

PROJECTS

SMR (Developing): Secure Ride-Sharing Platform

Developed a cost-effective ride-sharing app for intra-city and inter-city travel, maximizing seat utilization to reduce costs and promote sustainable, community-driven transportation with secure and user-friendly features.

Learning Path Generator with Model Context Protocol (MCP)

Built a Streamlit-based web app that generates personalized learning paths using Model Context Protocol (MCP), integrating YouTube, Google Drive, and Notion for a seamless learning experience.

Disease Prediction Toolkit: Building and Evaluating ML Models

Developed a Disease Prediction Toolkit using machine learning models (Logistic Regression, Random Forest) on real-world health datasets, enabling beginners to analyze data, build accurate models, and showcase results for healthcare AI/ML roles.
